

MCovid 19 Recovery Plan - Music

Here is the long term plan for Music. Highlighted in red is where each year group should plan to cover the missed objectives due to our pro-longed period away from school during the Covid 19 outbreak. These are objectives which should have been covered in the Spring 2 and Summer Terms 2020. Careful assessment of the pupil's skills in Music will be made during the first term against the assessment statements set out in Target Tracker and plans will be adjusted to address any gaps identified.

Rational

From conversations I have had with most teachers there was a majority that were behind in the units they should have taught prior to lockdown, the majority seemed to be finishing Autumn 2 and hadn't started Spring 1. Many of the skills in each unit build on each other so when assessing pupils prior to teaching please look at the skills from previous units to accurately see where pupils are. Each unit has the assessment criteria on Charanga to use. The focus should be on ensuring pupils have a secure understanding prior to moving forward, this may mean you need to spend longer than the weekly 1-hour session to ensure all pupils have the secure basis upon which they can build and develop their skills. Most of these skills can be caught up using a new unit as long as you are mindful of the gaps that need to be filled.
